

2.1 Occupational Safety and Health Policy

At Datatel Electrical & Communications, we aim to provide innovative solutions for our customers whilst ensuring the safety and health of our people, partners and the communities in which we operate.

We are committed to:

- Fostering a culture of trust and honesty where health and safety issues can be discussed and addressed
- Embedding clear accountabilities for health and safety
- Developing objectives and targets to drive improvements in safety and health outcomes
- Complying with all relevant health and safety legislation, standards and requirements
- Providing safe processes and systems of work
- Reporting, investigating and learning from our incidents and near misses and embracing the philosophy of continuous improvement
- Training our people so they are equipped to undertake their roles in a safe manner
- Demonstrating visible leadership and engaging with our people in the field on health and safety matters
- Supporting the management of injuries and illnesses through early intervention and rehabilitation
- Listening to our clients and our people and recognising they play a critical role in driving improved performance in health and safety
